5. MANUFACTURING.

Table No. 35.

SUMMARY OF FACTORY STATISTICS—QUEENSLAND.

(NOTE :—In this table heat, light, and power factories (Class xvi) are included).

Definition of Factory.—A factory for statistical purposes is an industrial establishment in which four or more hands are employed or in which power other than hand or horse is used.

Average Number of Persons Employed.—This information has been compiled in two ways—(*a*) Average number of hands over the whole year : (*b*) Average number over the period of operation.

Value of Output.—This represents the selling price at the factory of all products manufactured during the year, whether sold or held in stock.

Value of Production.—This figure is arrived at by deducting from the value of output the cost of raw materials, containers, fuel, light, power, oil, water, tools replaced and repairs to buildings and plant. It has been agreed upon by the Australian Statisticians as being the best estimate at present obtainable of the contribution of factories to national wealth production. It represents the fund which provides wages and salaries, profits, interest, and rent. Its most serious fault is that it includes the cost of depreciation which strictly should have been deducted along with other "costs of production."

a Figures on lines marked thus refer to "Average Number of Hands, &c., employed over whole year," or are dependent upon "Average Hands, &c., over whole year."

b Figures on lines marked thus refer to "Average Number of Hands, &c., over the period during which the factory was in operation."

c Book values, less any depreciation reserve in respect of them, as stated by factory proprietors.

d Comparisons between years should be made with care on account of changed definitions. From 1936-37, horsepower is defined as "rated horsepower of engines ordinarily in use."

e Excluding electric motors (34,021 h.p. in 1936-37) used in factories where the electricity was generated by themselves. The prime movers only are included.

f The amount of Depreciation on Buildings, Machinery and Plant as stated on returns was £1,123,183 for 1936-37.

a Excludes Specie. Large shipments of gold specie distorted oversea export statistics during the depression years.

b Includes the net export of livestock and wool overland, averaging nearly £1,000,000 per annum.

c Queensland's gold production is exported oversea through Southern States, but there are no export statistics.

a Exclusive of advances, totalling £243,000, made by the Commonwealth to the State of Queensland in terms of "*The Wire and Wire-Netting Advances Act of* 1927."

b Payable Overseas £3,208,818, Australia £1,921,176.

NOTE.—During the year ended 30th June, 1921, the addition to the Public Debt amounted to £10,592,088. The actual increase in the Loan Liability of the State was £4,625,172. The sum of £10,592,088 included £5,936,916, portion of the funds of the Queensland Government Savings Bank. It was the practice to make use of these funds towards meeting the cash requirements of the State. As no securities were issued for the sum used in this manner, the liability was not treated as part of the Public Debt. In terms of the Agreement under which the Queensland Government Savings Bank was transferred to the Commonwealth Bank in the year 1920, Queensland Government Securities for this sum had to be issued to the latter Bank, thus necessitating the addition of the amount to the Public Debt.

h Includes amounts written off by Commonwealth as follows:—£475,000 from 1st July, 1925, and £137,233 from 1st July, 1927.

j Exclusive of advances totalling £243,000 made by the Commonwealth to the State of Queensland in terms of "*The Wire and Wire-Netting Advances Act of* 1927."

NOTE.—During the year ended 30th June, 1921, the addition to the Public Debt amounted to £10,592,088. The actual increase in the Loan liability of the State was £4,625,172. The sum of £10,592,088 included £5,936,916, portion of the funds of the Queensland Government Savings Bank. It was the practice to make use of these funds towards meeting the cash requirements of the State. As no securities were issued for the sum used in this manner, the liability was not treated as part of the Public Debt. In terms of the Agreement under which the Queensland Government Savings Bank was transferred to the Commonwealth Bank in the year 1920, Queensland Government Securities for this sum had to be issued to the latter bank, thus necessitating the addition of the amount to the Public Debt.

NOTE.—This Table refers to operations under "*The State Advances Corporation Buildings Improvement Act of* 1932." On 1st August, 1932, the Government, in order to assist in the relief of unemployment, inaugurated the "Building Revival Scheme," under which an owner of land on which a residence is erected, or a person who is acquiring a residence on a system of rent-purchase may obtain a loan for any of the following purposes:—(*a*) external and internal painting, (*b*) general repairs to preserve residence, (*c*) alterations, additions, and other improvements in respect of residences. The limit of any loan is £300; and, as far as practicable, the work is to be given to unemployed contractors and workers. Advances up to £500 may now be obtained for renovating Schools of Arts, and halls and buildings upon land owned by any agricultural or horticultural society.
